

AT A GLANCE

A manufacturer, not a reseller

ABA Wood designs and manufactures furniture in its own facilities in Karachi and Islamabad. We are not an importer and not a retailer of other people's stock — every piece we sell is made in our own units, by our own team, to our own standard.

That matters most to buyers with a specification to meet. Because production is in-house, we can quote against drawings, match an existing finish, build to non-standard dimensions, and answer for the result ourselves rather than passing a complaint down a supply chain.

2023 ABA Wood established	2 Manufacturing units	30–40 People on the team
109 Products in the range	25+ Years of industry experience behind it	

WHAT WE MANUFACTURE

Nine categories, built to order or from the range

Standard designs are shown in our online catalogue. Anything in it can be altered — dimensions, timber, finish, upholstery — and we regularly build from a client's own drawings.

Bedroom

Bed sets, side tables, dressers

Sofa sets

Three, five and seven seater, with centre tables

Kitchens

Fitted kitchen units and cabinetry

Wardrobes

Fitted and freestanding

Doors

Internal and main doors, panelled and flush

Dining

Tables and chairs, six and eight seater

Office furniture

Desks, workstations, storage, reception

Chairs

Occasional, dining and accent seating

Interior woodwork

Panelling, counters and fitted joinery

WHERE WE MAKE IT

Two units, two cities

Karachi — manufacturing and retail

B-153 Capital Society Main Road,
near Malir Cantt, Karachi

Our first unit, established 2023. The retail showroom opened alongside it in 2024, so clients can see finished work and meet the people who build it.

Islamabad — manufacturing and display

Japan Road, near Naval Anchorage,
Islamabad

Opened 2024 as our second production unit with a display centre, serving the twin cities and the north.

TRACK RECORD

Who we have supplied

Corporate furniture clients

DP World and **Bank Al Barqa**, with furniture delivered to branches in Lahore, Karachi, Bahawalpur and Dera Adam Khel — multi-city delivery and installation, secured within our first year of manufacturing.

We also supply interior designers and contractors who specify on behalf of their own clients.

The experience behind us

ABA Wood was founded on 25 years of construction and interior work carried out by our parent company, **ABA Associates**, whose clients have included Shell, UBL, TCS and the Pakistan Air Force.

That work was construction and interiors rather than furniture supply — but it is the reason ABA Wood exists, and the standard it was built to meet.

HOW WE WORK

From enquiry to installation

- 1 Enquiry and brief**
Send drawings, a specification, or simply a photograph of what you have in mind. For corporate orders we will come to the site.
- 2 Quotation**
Priced against the actual specification — timber, finish, dimensions and quantity — not a catalogue rate.
- 3 Sample or drawing approval**
For larger orders we produce a sample piece or a detailed drawing for sign-off before production begins.
- 4 Manufacture**
Built in our own unit. Progress can be inspected at any point; corporate clients are welcome to visit during production.
- 5 Delivery and installation**
Delivered and installed by our own team. We have supplied across Pakistan, including Lahore, Bahawalpur and Dera Adam Khel.

PART OF A GROUP

One group, one point of accountability

ABA Wood is the furniture manufacturing arm of ABA Group. Its sister company, ABA Associates, delivers construction, renovation, interior design and project management across Pakistan.

For a client building or fitting out a space, that removes the usual gap between the contractor and the furniture supplier — the point where budgets and programmes normally slip. One group is answerable for both.

Online

www.abawood.com.pk

Send us the specification. We will quote against it.

Whether it is one bed set or fifty workstations, the process is the same — and the people who quote it are the people who build it.

Pakistani furniture design,
manufacturing and retail —
built on quality craftsmanship,
honest materials and
thoughtful design.
